

I love listening to KLOVE. Please don't displace it with a LPFM broadcaster! KLOVE is so uplifting to my Spirit. It keeps my focus on God and thus makes me a better person in the community. The public needs KLOVE. It help them in their day to day lives to be in this world, where there is so much evil, good people, thus making our world a better place! KLOVE and AIRONE are the only 2 christian music stations available in my area! We don't need more secular broadcasting. We have enough already!
